

The Life & Arts Festival presents Design For Life May 10 & 11, 2008, Kelowna Art Gallery

*Designer Six Pack
15 Designers! 6 Minutes of Fame!*

The Life & Arts Festival is calling for local designers to participate in our Designer Six Pack - a showcase for established and emerging designers in all disciplines to take the floor and strut their stuff in a fast-paced presentation of 20 images from their portfolio in 6 minutes. The Designer Six Pack is open to architects, graphic designers, interior designers, landscape architects and others in the Okanagan Valley, but presentation spaces are limited. For more information please contact:

Janet Anderson, Artistic Director, Festivals Kelowna

Design for Life is an event component of the Life & Arts Festival that explores design and its ubiquitous impact in our lives through presentations, panels and exhibits. Sustainable Design will be the focus in 2008 as we explore the "greening" of all kinds of design - from cities to buildings to landscapes to products.

The Life & Arts Festival is a multi-discipline arts festival produced by Festivals Kelowna that offers a diverse set of experiences and performance opportunities through partnerships with artists, arts groups and businesses in the community. Music, live theatre, street performances, dance, visual arts, a lantern festival, the spoken word and multiculturalism are all part of the inclusive programming showcased at the Festival annually on the Mothers Day weekend in May.
